Technical drawing of a mechanical assembly, likely a roller or conveyor component, showing two views: a top view (left) and a side view (right).

**Top View (Left):**

- Overall width: 100
- Distance from left edge to center of mounting hole: 22
- Mounting hole diameter: 10
- Distance from left edge to center of mounting hole: 60

**Side View (Right):**

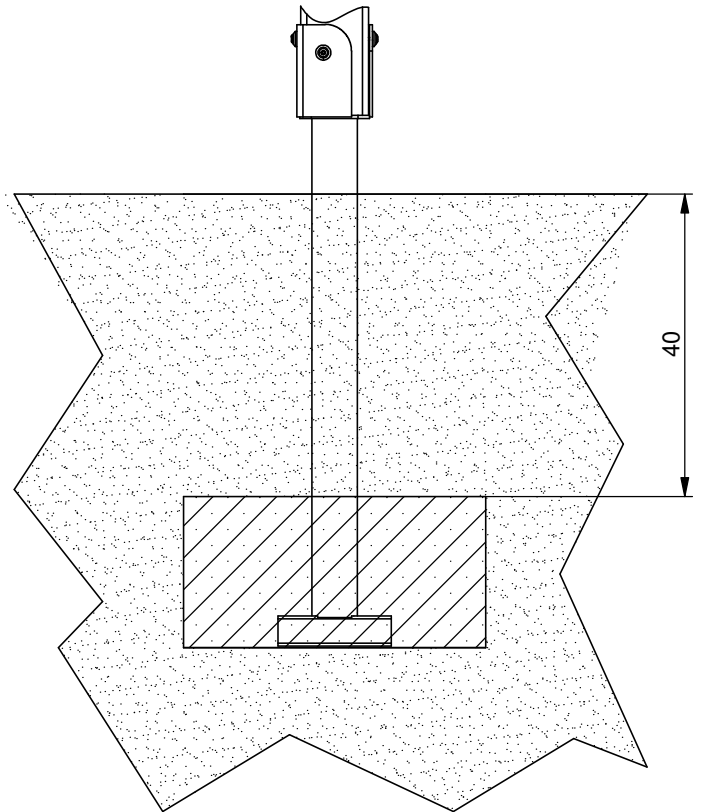

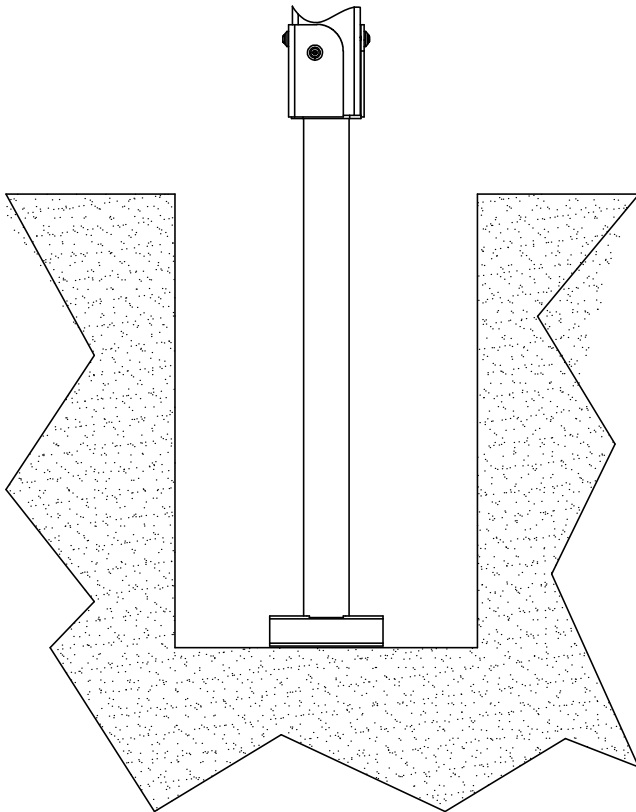

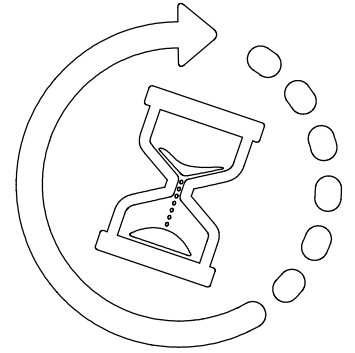

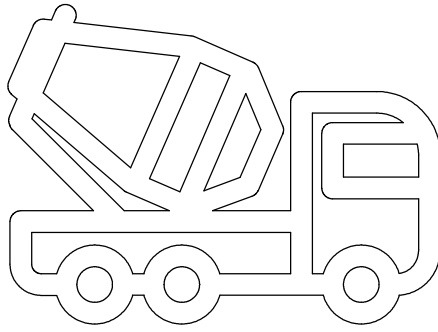

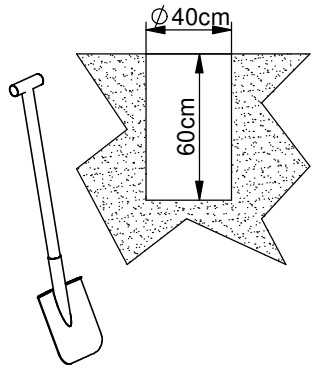

- Overall width: 100
- Distance from left edge to center of mounting hole: 22
- Mounting hole diameter: 10
- Distance from left edge to center of mounting hole: 60

The drawing includes a central vertical line indicating the axis of symmetry. The top view shows a series of hexagonal patterns, possibly representing a honeycomb structure or a specific material texture. The side view shows a series of rectangular patterns, possibly representing a series of rollers or a specific material texture.

Technical drawing of a 100x100x10mm aluminum extrusion profile. The drawing shows the profile from the side and top views. Dimensions include a total length of 100mm, a 22mm wide end flange, a 5mm wide central section, and a 10mm wide base flange. The hexagonal mesh insert is shown in the center, with a 22mm wide section at the bottom.
